Live! Cam Vista IM

The simple choice for online communication!

Creative's Live! Cam Vista IM is the modern webcam for video instant messaging. It's a great choice for people who want to enjoy live webcam chatting or internet phone calls – especially as it comes complete with a lapel microphone. It's easy to install via USB, simple to use, and can also capture still images and video clips. The sleek, compact design looks great and will adapt to any environment, thanks to its versatile four-way base. The Live! Cam Vista IM works with all instant messaging services including MSN and Yahoo! as well as Skype. It is supplied with Creative's WebCam Center SE software for video and photo shooting.

- **High resolution VGA sensor (640x480) gives crisp, detailed results during online video messaging and internet phone calls.**
- **Compatible with all instant messaging services including Yahoo!, MSN and Skype. Supplied with lapel microphone for out-of-the-box convenience.**
- **Captures stills and video clips on the desktop at resolutions up to 800x600 (interpolated).**
- **Easy front focus adjustment and LED status light.**
- **Versatile four-way adjustable base can be used on a wide range of surfaces including LCD monitors.**
- **Bundled WebCam Center SE software for video and photo shooting**
